Objective

I am an software engineering student with a solid foundation in computer science, programming and a knack of coding in C, C++, python, MySQL, java. Seeking to enhance my skills and contribute in cutting-edge projects in software development. I can use my problem-solving skills and knowledge to provide high quality software solutions.

Education

Chandigarh University   Aug2023-June2027
Bachelor of Engineering (BE)

Army Public School, MHOW
Matriculation(2019-2020):89%   Intermediate(2021-2022):86.2%

Technical Skills

Languages : Python,C,C++,HTML/CSS,Javascript,SQL.
DeveloperTools : VS Code,Eclipse.
Technologies/Frameworks : DataStructure,DBMS.

Interpersonal Skills

swimming, shooting, cricket, watching movies

Projects

Arduino based device controlling system | C++ with Arduino IDE   February 2024

• Designed and implemented hardware setup and implemented it with Ubidots for real time controlling and control.

• Wrote code in C/C++ for the Arduino microcontroller to interface with actuators and sensors.

• Tested and debugged the system to ensure liable operations and user-friendly control interface with environment.

Portfolio | HTML, CSS, JS   June 2024

• Outline my educational background, skills, and experience while showcasing projects, with detailed descriptions and technologies used.

Online quiz system | HTML, CSS, JS, Node.js   January 2025

• Allow users to create,manage,and customize quizzes,including multiple questions like multiple choice, true/false and setting timers or scoring rules.

• Provide a user-friendly interface for taking quizes, displaying immediate feedback or result.

Certifications

• Certificate in Data Visualisation By TCS.
• Certificate in Time Management By LinkedIn.
• Certificate in Interfacing with Arduino by Coursera.
• Certificate in Introduction to RDBMS by Coursera.

Achivements

• Earned 1 badge with 4 completed rooms on TryHackMe.
• Maintained a 50-day streak on CodeChef with 5 badges.
